DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The Prior Art does not fairly teach or suggest the *combination* of a pressure sensor and spark plug coil or glow plug having a first electrically conductive ring connector configured to receive a pressure signal and a housing having a main axis and having *at least one electrically conductive leaf spring member* wherein said leaf spring member is configured to resiliently engage said first ring connector over a first predetermined angle relative to said main axis, the leaf spring member being further configured for conduction of at least said pressure signal to an interface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
